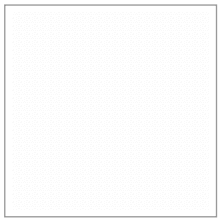
Druckertest für den tiptoi-Stift

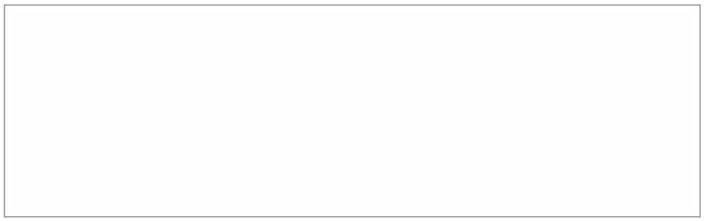
1. druckertest.gme auf den Stift kopieren.
2. Diese Seite in Originalgröße drucken: keine Skalierung („Tatsächliche Größe“ / 100 %), höchste Druckqualität, keine Tonersparfunktion.
3. In einer Zeile zuerst „Anmelden“, dann „Test“ antippen. Der Stift nennt die erkannte Variante.
4. Die zuverlässigste Variante im Designer unter Projekt -> Druckauflösung / Punktgröße eintragen.

Variante A

1200 dpi, Punktgröße 1



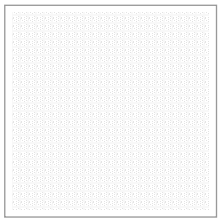
Anmelden



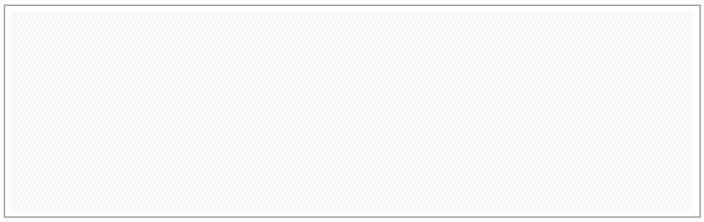
Test A (OID 2665)

Variante B

1200 dpi, Punktgröße 2



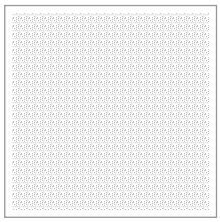
Anmelden



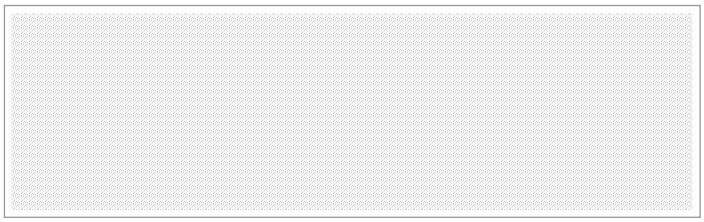
Test B (OID 2666)

Variante C

1200 dpi, Punktgröße 3



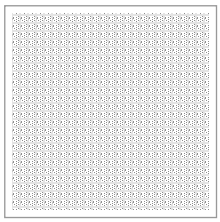
Anmelden



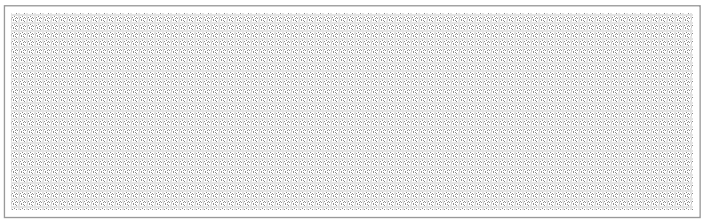
Test C (OID 2667)

Variante D

1200 dpi, Punktgröße 4



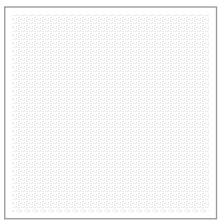
Anmelden



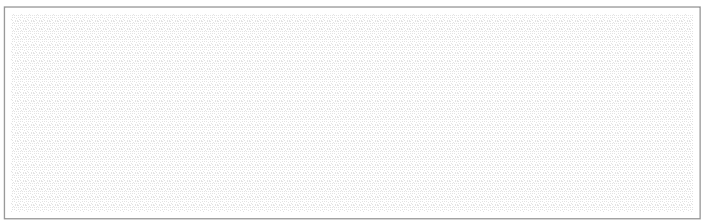
Test D (OID 2668)

Variante E

600 dpi, Punktgröße 1



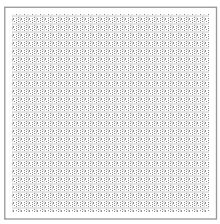
Anmelden



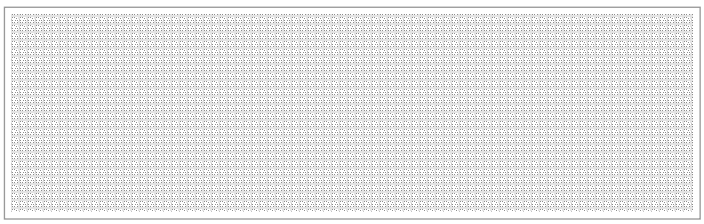
Test E (OID 2669)

Variante F

600 dpi, Punktgröße 2



Anmelden



Test F (OID 2670)
